JULIANA FRANCESCA A. PERALTA

julianafrancesca1821@gmail.com | 09451656739 | San Mariano, Isabela

SUMMARY

Detail-oriented Computer Engineering student seeking an OJT opportunity to apply knowledge in software and hardware development. Proficient in C, C++, Python, and Java, with experience in database systems, algorithms, and system troubleshooting. Knowledgeable in computer hardware, microprocessors, embedded systems, and circuit fundamentals. A fast learner eager to gain industry experience and contribute to innovative engineering solutions.

ACADEMIC EXPERIENCE

- Completed extensive coursework in C, C++, Python, and Java, emphasizing programming logic, software design principles, and code optimization.
- Applied data structures, algorithm development, and object-oriented programming (OOP) in laboratory projects and hands-on programming exercises.
- Served as a developer in a team-based project, contributing to system design, coding, testing, and debugging to ensure efficient, high-quality performance.
- Gained hands-on experience in computer hardware fundamentals, including component identification, system installation, and basic troubleshooting.
- Acquired foundational knowledge in microprocessors, embedded systems, digital logic circuits, and electronics through laboratory work.
- Collaborated with team members to analyze requirements, resolve software and hardware issues, and implement effective solutions.

EDUCATION

Cagayan State University - Carig Campus — **2023 - Present**
Bachelor of Science in Computer Engineering
Tuguegarao City, Cagayan

San Mariano National Highschool - Main Campus — **2021 - 2023**
Science, Technology, Engineering, and Mathematics
San Mariano, Isabela

San Mariano National Highschool - Main Campus — **2017 - 2021**
San Mariano, Isabela

San Mariano Central School SPED Center — **2011 - 2017**

KEY SKILLS

Technical Skills

- Programming Languages: C, C++, Java, and Python
- Computer Hardware Troubleshooting
- Knowledge of Microprocessors and Embedded Systems
- Basic Digital Logic Circuits and Electronics

Soft Skills

- Strong Communication Skills
- Fast Learner with Hands-on Learning Approach
- Teamwork and Collaboration
- Time Management and Organizational Skills
- Problem-Solving and Critical Thinking
